IPAD BASICS - ONLINE TRAINING

September 19, 2011 by cpehrson

The Utah Assistive Technology Program (UATP) will present a FREE online interactive training on Wednesday, October 5, 2011 from 3:00 – 4:30 p.m. Nathan Smith, director of technology for the College of Education and Human Services at Utah State University, will present: iPad Basic Training.

This FREE training sponsored by the UATP will focus on iPad basics - what you need to know to get started using the iPad right out of the box. It will cover topics such as getting started with your iPad, working with apps, using gestures, using the virtual keyboard, using multimedia, and more. You'll be introduced to apps that can make your iPad an indispensable tool that you'll always keep by your side. You'll also learn how to use the built in features for those with disabilities.

In order to participate, you will need a computer with high-speed internet access. If you are interested in participating please RSVP by October 3 to Storee Powell via email storee.powell@usu.edu, or call 435-797-7412. Instructions will be emailed to you.

If you are a screen reader user please contact Sachin Pavithran at 435-797-6572 or sachin.pavithran@usu.edu no later than October 3 to make arrangements to participate via phone or for other accommodations needed in order to participate in the training.
